

Welcome to
5 Steps Academy

**Personalized Accelerated Learning
International School**

5 Edges of Difference

1. Winner's Values
2. Accelerated Learning
3. Personalized Education
4. Unique Teaching and Testing
5. Flexible Fees and Holiday Structures

Winner's Values

- ▶ Courage
 - ▶ Ready to try, focus, and make mistakes
- ▶ Kindness
 - ▶ Skills to be polite, to respect and support others.
- ▶ Discipline
 - ▶ To be responsible, diligent and hardworking

**He who would catch fish
must not mind getting wet.**

Accelerated Learning: **Why** learn faster?

Opportunity for kids to find
their way and enjoy their
lives.

Time

Save time to widen and deepen children's horizons

Choice

Experiment with careers and get a head start with real-life work

Confidence

Feel a growing power of knowledgeability

Interest

Boost motivation to learn and develop natural curiosity

Maturity

Balance mental and physical maturity

Personalized Education

► Individual Learning Plans

- Every student has their own individual learning plan with tailored milestones that are based on their initial level, speed of comprehension, personal memory patterns, diligence etc.

► Personalized Pace and Goals

- Every student advances with their own pace and reaches goals according to their abilities.

► Personalized Amount of Homework

- Parents can fine tune the amount of homework according to their family values.

► Personalized Resources and Additions to the Curriculum

- Parents are able to add new elements to the curriculum, choose textbooks or other recourses and allocate more hours to their child's priority sublets.

► Personalized Holidays and Starting Day

- The school runs throughout the year; parents choose their holidays of any length themselves and don't pay for them. The children can join the school at any day or time.

► Direct Access in Real Time

- Parents can talk to any teacher on any day and have direct access to their child's progress. So that they are consistently aware of where they are exactly in their educational journey.

Unique Teaching and Testing

- ▶ **Max Speed**
 - ▶ Higher rates of learning without reduction of comprehension or retention
- ▶ **We explain personally**
 - ▶ Proprietary and proven “sliced explanation” techniques tailored to every child’s unique learning style. No lectures, all students are different.
- ▶ **Immediate on-the-spot correction**
 - ▶ No delay when correcting mistakes that were made. Everything is done **Now**.
- ▶ **No waiting, no wasting time**
 - ▶ Just after a skill is mastered, the student moves to the next topic.
- ▶ **Personal grading exam day**
 - ▶ In traditional schools, all students sit for the exam on the **same day** and get **different grades**. In 5 Steps, every student sits for the exam only **when they are ready** and get the **same grade**; which is always A. No stress for slow learners, no wasting time for advanced students.

Flexible Fees And Holiday Structures

► **5 No's to costly education**

- No registration fee, no admission fee, no materials fee, no other hidden fees and no deposits.

► **Affordable**

- \$1800 per month including all the selected Co-Curricular Activities.

► **Monthly payments**

- No risks of getting stuck in the wrong school. We don't chain the parents with lump sums. They are happy because they see amazing improvements every month.

► **Prorated fees**

- If a student joins the school in the middle of the month or decides to go on holiday in the middle of the month we prorate the school fees accordingly.

► **No charge for holidays**

- That's it. Choose your own holiday periods (up to 4 per year) of any length and you don't have to pay for them.

More Insights: a Quick Look Under the Hood

- ▶ **Smart student motivation basis**

- ▶ Joy of victories vs. joy of entertainments.

- ▶ **Low cost**

- ▶ Efficient, scalable, and lean business model.
- ▶ Only necessary facilities and equipment with the target on academic achievements.
- ▶ Substantial share of professional part-time teachers (passionate scientists, artists etc.) replacing traditional full time lectures to diversify students' experience.

More Insights: a Quick Look Under the Hood

► 5 Steps quality control system

- Proprietary and proven teaching methodology
- Teachers selection and training: young, smart, professional and able to feel the child.
- Cambridge curriculum: individualized fine-tuning according to students needs.
- Effective materials and equipment selection to reinforce learning.
- CCTV and on-site supervision of the teaching process, feedback and correction.

► Achievements

- Record-breaking results in IGCSE exams, medals in mathematics Olympiads and chess competitions.

About 5 Steps Academy

Mission: Through the 5 Steps System™, we help children grow into knowledgeable, self-confident, and caring young professionals in the most efficient way.

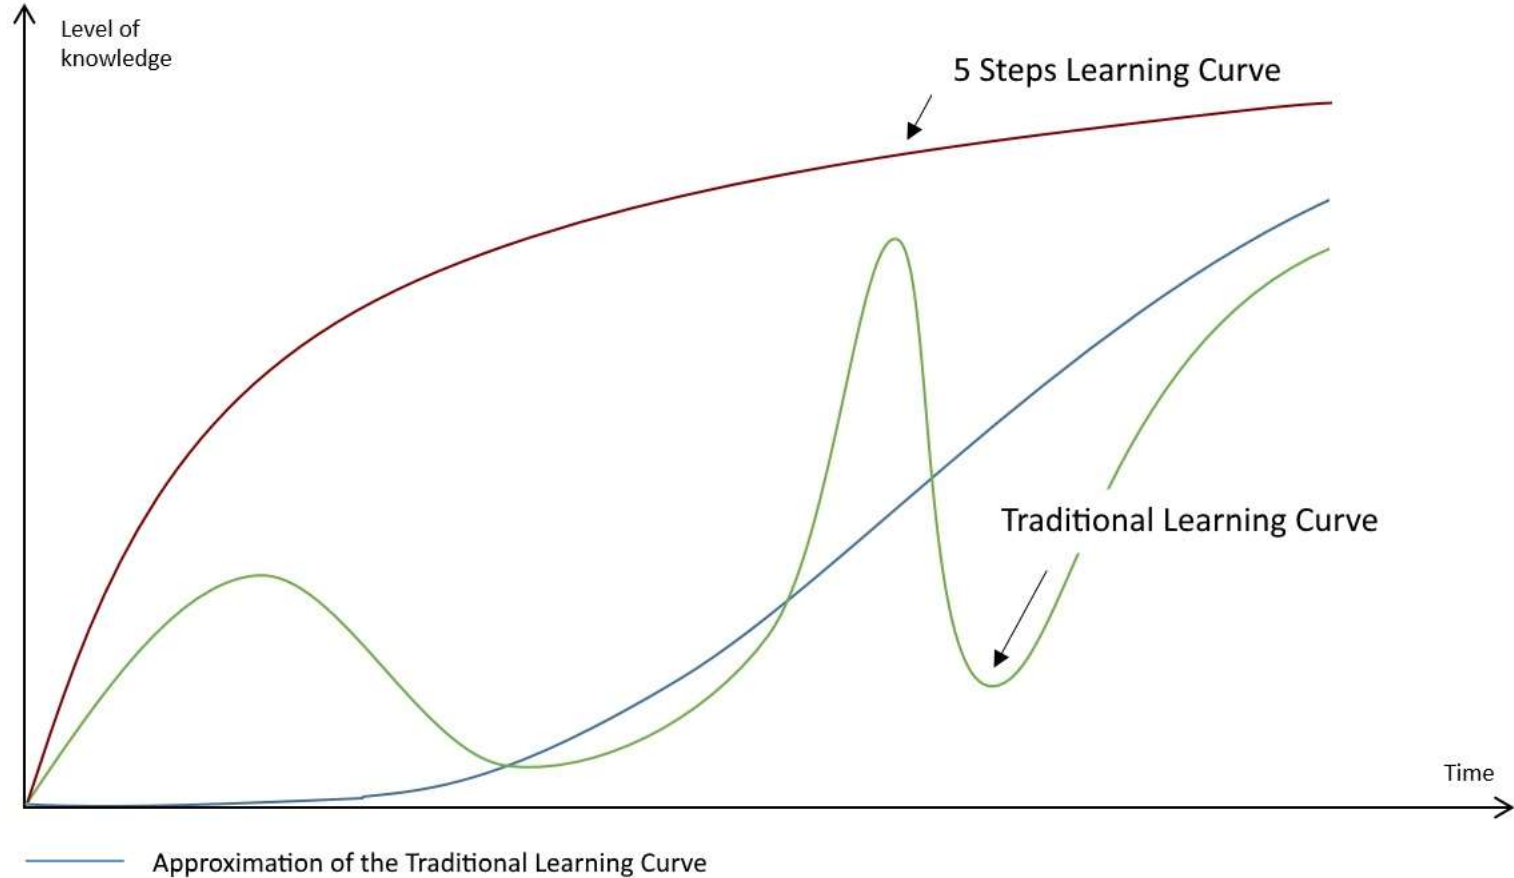

Vision: A worldwide network of personalized accelerated learning schools.

Bringing up enthusiastic young professionals

It's time to learn
SMARTER

Learning Curves

Why 5 Steps System™?

The idea behind the system is to speed up mastering curriculum, to encourage students to *think out of the box*, to *believe in themselves*, to *persist in problem-solving*, to *take thoughtful risks* and to *celebrate small wins*.

Speed learning

Children save time in order to enjoy a wider spectrum of activities and to specialize in areas of their interests whilst boosting their motivation to learn.

Personality Development

5 Steps Academy teaches students high social, moral and ethical standards, to help them grow into independent, self-confident, caring, and principled people.

Self-learning and Communication Skills

Children are often scared of speaking in public or dealing with unknown concepts themselves. But not 5 Steps' students. We teach them these important skills.

WHEN. TIME ASPECTS.

5 STEPS

01. Languages

02. Mathematics

03. Physics, Chemistry, Bio

04. Humanities

05. Specialization

SENSITIVE PERIODS

The child's mind is open and receptive to different activities and types of information at different times.

SUBJECTS IN FOCUS

We allocate more time for priority subjects according to sensitive periods.

INDIVIDUAL ADJUSTMENTS

The subjects' priority periods could be overlapped and changed individually.

What. Subjects aspects.

Big chunks of the syllabus with multiple recaps on different levels

CALCULATION SKILLS

CONCEPTS IN CONTEXTS

RESEARCH PROJECTS

SIMPLE CONCEPTS

MULTISTEP PROBLEMS

What. Subject aspects.

From Timeline to Historical Analysis

How. Approach aspects.

Children learn differently. Varying levels, styles, paces, abilities and preferences. Individualized support and small classes determine 5 Steps' students academic success.

Small Groups

1 to 1 approach in small groups - the importance of dialogue

Critical Thinking

Critical and creative thinking

Learn / Forget Curves

Understanding and using each child's unique Learn / Forget curves - the art of recapping

Information Filters

5 Steps information filters - dealing with resources

Teaching Principals

Ten teaching principals

5 Steps Academy Teaching Principals

Conducive Environment

Tell them they are the best, let them experiment, be a good example, don't shout, immerse them in new situations, have fun and play together, and read, read, read: choose books together, show a personal example, role-play, read before bed, join a reading club, and... turn off the TV!

WE TEAM UP WITH PARENTS

We try our best to align the school and family values using the Parent Care program. We are proud of how strongly the bonds are forged and how this contributes to our students' achievements.

Uninterrupted Creativity

Staying focused is essential for academic successes. Eliminate all possible distractions.

Efficient Parenting

Calm and supportive learning environment at home. Practice the best parenting techniques.

The Values

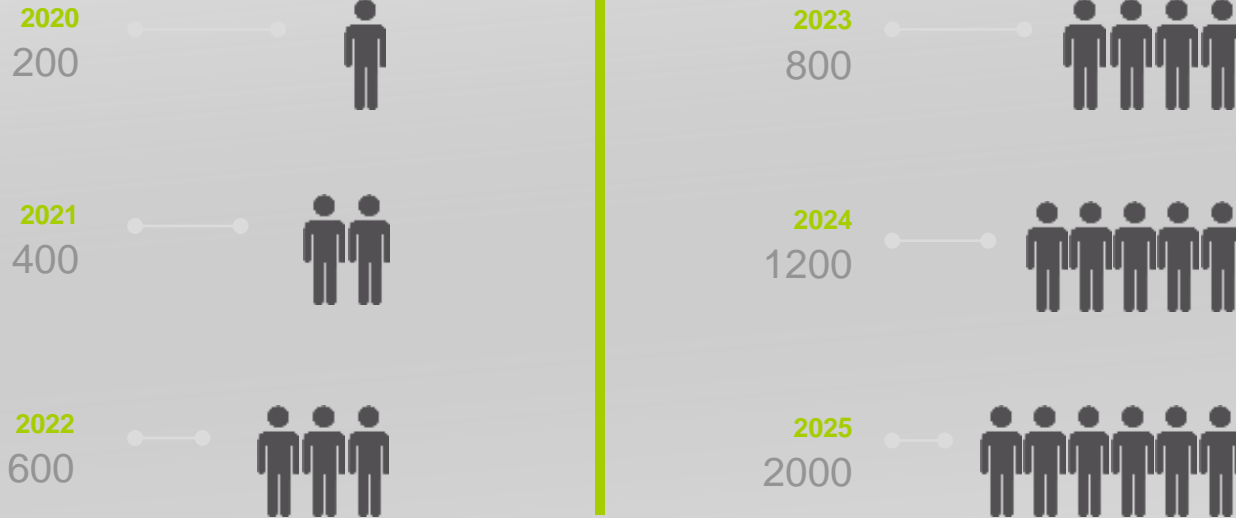

Courage, Kindness, Discipline, Resilience. Teach by the best example - yourself.

With many new parents being new to Singapore, the parent care group helps them to settle in and fosters new friendships.

time

Our **plans**. Numbers of **students** enrolled by years.

We are going to set up 4 campuses by 2023 and start an international expansion.
