# 5 Steps Academy

Personalized  
Accelerated

 Cambridge Assessment  
International Education  
Cambridge International School

College Board  
Approved K-12 level II school  
SAT & AP test centre

## The Key Benefits

5 Steps Academy is a *Cambridge International* and *US College Board-approved K-12 school* entitled to administer *SAT & AP* and *IGCSE & A-level* examinations.

We are the only international school in Singapore *focusing on Mathematics* while providing a world-class multilingual, well-rounded education founded on *academic rigor*, small classes with a *1:8 teacher/student ratio*, and complemented by *rich co-curricular programs*.

Students sit for grading tests *only when they are ready* and well-prepared. “Every student is an A-student” and “No stress” policies are essential to the 5 Steps System.

Every student has his/her *individual learning plan* and *test dates*, *progressing at his/her own pace*.

Elementary and middle school students follow the Cambridge-based curriculum. High school students can choose IGCSE and A-levels or US syllabuses with SAT and AP tests.

You may join any time and decide on the school holiday periods yourself.

You can talk to any teacher on any day and have direct access to your child's progress, updated in real-time. You are constantly aware of where exactly your kids are in their educational journey.

Proprietary teaching techniques ensure that 5 Steps students progress with maximum comfortable speed. No waste of time for fast learners no frustration for slow thinkers.

Record-breaking results in IGCSE exams, medals in Olympiads and chess competitions.

Learning outcome quality control and student support system to ensure every student reaches his/her highest potential.

Teacher selection and training: smart professionals who are able to understand the feelings of the child.

Smart student motivation basis: the joy of small wins and achievements instead of the joy of entertainment.

Safe environment with CCTV. Zero-Tolerance for Bullying. No mobile phones are allowed.

DISCOVER NEW HEIGHTS

## 5 No's To Costly Education

No registration fee, no admission fee, no materials fee, no other hidden fees, and no deposits.

Affordable \$2080 per month, including all the selected Co-Curricular Activities with monthly payments. No fees for holiday periods.

## Admissions Ongoing

1. Visit the school and attend a personal pre-course counseling session.
2. Apply online and sign the contract.
3. Transfer the first month's school fees.

Then you can start anytime, and your start day will become your payday (you can change it later; we will prorate).
